

2022 Allina Health Cancer Institute Symposium Agenda

8:00-8:10 AM

Welcome

8:10am-9:00am

Establishment of an Academic Community Hybrid Oncology Program Focused on Value and Outcomes

Brief Description: Keynote address discussing the future of cancer care.

Derek Raghavan, MBBS, MD, PhD, FACP, FRACP, FASCO, FAAS, President, Levine Cancer Institute, Academic Chair - Hematology/Oncology & Professor of Medicine, Atrium

Moderator: Badrinath Konety, MD

9:00am-10:00am

Allina Health Cancer Institute: Redefining Cancer Care during Time of Change

Brief Description: Navigating population health management in oncology tackles two of the most pressing and interrelated healthcare challenges: unsustainable spending and an increasingly complex patient population. Allina Health recently engaged in a population health, value-based contract with its largest commercial payer, including immediate implementation of strategies to address oncology costs. Allina Health Cancer Institute leadership will share its clinical and operational vision to embrace this change including tactical and design solutions from oncology urgent care to patient digital health tools.

Badrinath Konety, MD, President, Allina Health Cancer Institute, and Michael Koroscik, Vice President, Oncology Operations, Allina Health Cancer Institute

10:00am-10:15am

Break

10:15am-11:10am
