

Allina Health 

Management of Maternal Obstetric Complications

Presented by:

Minnesota Perinatal Physicians and
ANW Obstetric Critical Care Program

This multidisciplinary conference will address care of pregnant patients with acute illness. We aim to equip healthcare providers with the tools to identify pregnant patients at risk of becoming critically ill, prevent long term illness, provide initial treatment and stabilization, and understand acute care management, and prevent long term complications. The focus will consist of the frequent and urgent causes of maternal morbidity including cardiovascular disease, amniotic fluid embolism, diabetes, system conditions and substance abuse, along with the role of professionals who support this patient population.

Intended Audience:

Physicians, APP's, nurses, and other clinicians who care for pregnant patients. All health care professionals interested in enhancing care of the patient at risk of progressing to critical illness.
