

CT Exam - Omnipaque® Prep

Omnipaque Prep

- Open the bottle by twisting off the white plastic cover and pulling out the black rubber stopper.
- Mix the entire bottle of Omnipaque in 24 ounces of clear liquid. (You may use one of the clear liquids listed to the right.)
- Drink half of the mixture 60 minutes before your exam.
- Drink the remaining half of the mixture 30 minutes before your exam.

Please arrive 10 to 15 minutes before your scheduled exam time.

Important: Do not eat any food 2 hours before your exam.

You may take your regular medicines with small sips of water.

If you have any questions or concerns, please call:
