

Sacituzumab Govitecan (Trodelvy®)

Sacituzumab govitecan is a monoclonal antibody medicine combined with another anti-cancer medicine used to treat certain types of breast cancer and bladder cancer.

How Is It Given?

- clear liquid by IV (intravenous)

What Side Effects May Occur?

This is a partial list of the side effects you may have with this medicine. You may have some, all or none of those listed, or you may have other side effects not listed. Most side effects last only a short time.

Common:

- reaction during infusion such as fever, chills or headache (these are less likely after the first dose)
- lowered white blood cell counts
- nausea (upset stomach) and vomiting (throwing up)
- diarrhea (loose, watery stools)
- hair loss
- fatigue (tiredness)
- loss of appetite
- constipation

Less common:

- lowered platelet counts
- abdominal (belly) pain

- shortness of breath
- dizziness
- swollen feet, ankles or legs
- trouble sleeping
- dehydration
- cough
- headache
- high blood glucose
- imbalance of electrolytes (minerals your body needs to work properly)

Special Notes

- You will receive your first dose over a period of 3 hours. If you tolerate this dose, you will receive additional doses over a period of 1 to 2 hours.
- You will be given other medicines before your infusion to help prevent a serious allergic reaction to sacituzumab govitecan. You will receive these medicines by mouth or through the IV before starting the infusion.
- Tell your nurse right away if you have any shortness of breath, fever or chills while you are receiving this medicine.
- You may have changes in your menstrual cycle or sperm count. Discuss birth control measures with your doctor. You should not get pregnant or father a child while taking this medicine.

When To Call Your Doctor

You should call your doctor if you have:

- shortness of breath
- fever or chills
- swollen feet, ankles or legs
- symptoms of dehydration such as dizziness, lightheadedness or faintness.

Ask your doctor, nurse or pharmacist if you want more complete medicine information or if you have questions.
