

# Jackson-Pratt Drain Log

Measure the amount of drainage each time you empty the bulb of your Jackson-Pratt drain. Use the charts below to write down the date, time and amount (mL). If you have more than one drain, figure the totals separately. (See example below.)

When a drain's daily total is less than 20 mL's for 2 days in a row, call your surgeon's office to schedule an appointment to have your drain(s) removed.

Date	Time	Time	Time	Daily Total (mL)
April 2	8 a.m.	12 p.m.	5 p.m.	
<b>Tube 1</b>	10 mL	5 mL	2 mL	17 mL
<b>Tube 2</b>	5 mL	15 mL	10 mL	30 mL
<b>Tube 3</b>
