# Self Manual Lymph Drainage for Your Right Arm

This routine will help you move the swelling out of your right arm.

- □ Do these motions while lying on your back or seated with your affected arm raised on pillows.
- ☐ Do these each day before you apply your short stretch compression bandages or compression sleeve.

B

- ☐ Use a flat hand doing light strokes while stretching the skin to move the lymph fluid.
- □ Do \_\_\_\_\_ strokes in each area every day.
- □ Do more of these movements in areas of extra swelling (edema).

#### 1. Clear Neck

Α

Make circles above your collarbone. If instructed by your therapist, do both sides at the same time crossing your hands. (A)

C

- Make circles under your ear lobes. (B)
- Make circles midway between your ear and collarbone. (C)

D

■ Look over each shoulder both ways. (D and E)

#### 2. Shoulder Roll

- Slowly roll your shoulders backward.
- Squeeze your shoulder blades, making a circle, without moving your neck.
- After doing a set backward, reverse and roll your shoulders forward.

#### 3. Clear Abdomen

- Put your hand on your abdomen.
- Inhale (breathe in) through your nose, letting your stomach expand while applying gentle resistance.
- Exhale (breathe out) through your mouth with pursed lips, as the stomach flattens.
- Take 5 slow deep breaths.

## 4. Clear Left Armpit

Make circles in your left armpit.

## 5. Clear Right Armpit

Make circles in your right armpit.

## 6. Clear Right Groin

Make circles in your right groin.

#### 7. Clear Chest

8. Clear Right Trunk

A

Stroke from your waist to your groin. (A)

Make a full stroke on your right trunk from your armpit to your groin. (B)

C

Stroke across your chest from the middle of your body to your left armpit. (A and B) D

В

Stroke across your chest from your right armpit to your left armpit. (C and D)

# 9. Clear Right Arm

Α

Stroke the front side of your arm from your elbow to your armpit. (A)

 Stroke the back side of your arm from your elbow to the back of your armpit.
(B)

Make circles in your elbow crease. (C) Stroke the front side of your forearm from your wrist to your elbow. (D)

Stroke the back side of your arm from your wrist to your elbow. (E)

E

# 10. For Finger and Hand Swelling

#### Α

Stroke the back of your hand from your knuckles toward your wrist. (A)

#### В

 Stroke the sides of your fingers from the tip to the base of your hand.
(B)

### 11. Full Arm Stroke

Stroke your full arm from the top of your hand to your armpit.

# 12. Deep Breathing

■ End the routine with several deep breaths.
