

Substance Use Resources

General Information

Each person who comes to an Allina Health Emergency Department while under the influence of alcohol or drugs will be seen by a health care provider.

He or she will give each person the best possible medical care and arrange care with resources in the person's community.

Together, you and your health care provider will decide which care is right for you. You will talk about what choices are available. Choices include being:

- admitted to the hospital
- referred to a county detoxification (detox) center
- released.

Detox Centers

Detox centers are a safe, secure place for people who have intoxication or withdrawal symptoms.

They provide medical care, chemical health assessments and referrals to treatment centers.

You may go to a detox center on your own at any time. If possible, please call first. A family member or friend may call for you. **Please do not drive yourself. Ask someone to drive you.**

Here are some options:

- Brown County Detox Center
510 N. Front St., New Ulm
507-359-9111

- Dakota County Receiving
1294 East 18th St., Bldg. One, Hastings
