

Brain Scan

Before the Exam

- Tell your doctor if you are pregnant.

During the Exam

- You will get an injection of a radioactive material in your vein.
- The radioactive material will help your blood flow to your brain show up on the computer images.
- Ten minutes after the injection, you will lie on your back on the exam table.
- A camera will move slowly around your head.
- You need to lie still.
- The exam takes about 60 minutes.

Your Health Care Provider

Name: _____

Phone number: _____
